

CASE STUDY

AXIS GREY ASH AND WEATHERED CHESTNUT

Design company Zentura were tasked with the refurbishment of the Elexon offices in Central London. For this project, the flooring of choice was Duraflor's AXIS range.

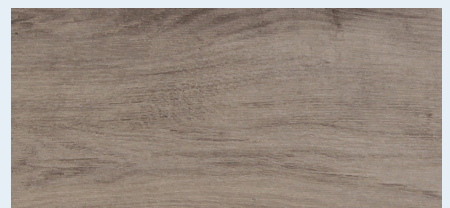

The design includes a highlight central circle of AXIS GREY ASH bordered with AXIS WEATHERED CHESTNUT planks, providing a hard wearing and attractive floor for this heavy traffic area. Its wear layer of 0.7mm means it gives excellent performance in this busy environment.

The project was to a tight deadline and completed in just 3 weeks, with Duraflor helping the client from sample to delivery to meet timescales and budget.
