

CASE STUDY

AXIS REAL OAK

As part of a complete office furniture and interiors project, Spectrum Workplace designed and installed a striking modern staff canteen design. AVM Impact's canteen and break out area experienced a large amount of traffic, as many staff visit this area each day. In order to cope with this demanding environment yet still provide an attractive and easy to maintain appearance, AXIS REAL OAK from Duraflor was chosen. Its natural design blends well and its high wear rating is suited to this busy area. It also worked well with the funky chairs and vibrant colour scheme chosen.

Staff commented on how much they appreciated the new vibe of their canteen and how it had been transformed into a high street style café that they would be keen to visit.
