

CASE STUDY

AXIS GREY SLATE AND GREY ASH

Alteryx appointed Zentura when they decided to open their first London office. Zentura immediately looked to Duraflor to assist them in creating the main feature area for the project, a large breakout area. The brief was to design the perfect place for staff to come together on a Friday afternoon, have a drink and take part in relaxing and social activities. The area was to include a kitchen, pool table and iconic furniture, so the floor covering needed to cope with heavy traffic, be slip resistant and ultimately showcase its surroundings.

Duraflor's AXIS range was the perfect choice, with its beautiful natural wood and stone finishes, and heavy contract wear rating. Its scratch and scuff resistance properties and resistance to chemicals, also made it the perfect choice for such a busy area. As a looselay tile, it meant minimum subfloor preparation and a quick and easy installation – enabling Zentura to complete 5,840 sq/ft fit-out in just 4 weeks.
