

## CASE STUDY

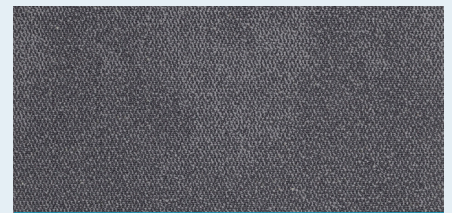

### FREEDOM STORM FLAGSTONE

When a building offers such an impressive view over the Thames and brings employees even closer to London's iconic buildings, there is a need for a design that can really complement this birds-eye view. The client wanted a stunning floor covering for their serviced offices project - a building that is also the home to the Daily Star, Daily Express and OK Magazine.

Our client choose from the FREEDOM COLLECTION - the STORM range, and they focused on the subtle combination of mid and light-grey tones, which our FLAGSTONE colour provides. This is a random lay tile that has excellent sustainability credentials, as well as a design that brings the elements of a dramatic sky right into the heart of the office.

FREEDOM is particularly hardwearing and easy to clean due to its heavyweave™ construction and antron®6.6 yarn with enhanced stain resistant properties. That means we can guarantee that it will stay looking perfect on the floor for many years to come, providing a consistently great look to match that ever changing London skyline.
