

CASE STUDY

MOMENTA BLACK SLATE AND METALLIC GREY

Carbon Black wanted their new 5,500ft space to have a modern industrial look and feel to complement the building's exposed services, whilst also reflecting the company's brand identity. GTA Interiors achieved this through utilising the blacks and greys of Carbon Blacks branding, with the brand's blues and oranges used as accents throughout. MOMENTA BLACK SLATE and MOMENTA METALLIC GREY vinyl tiles proved the perfect choice for the feature breakout area. The colour choice was perfectly aligned to the design brief and enabled a high degree of creativity to stunning effect. Plus the hardwearing vinyl tiles provided the additional benefits of an easy to maintain surface which will maintain its beautiful appearance for years to come.

Momenta is available in a range of beautiful traditional wood and stone colours, but the range also lends itself to achieving a very different look when combining METALLIC GREY (or METALLIC RUST) with stone designs, as in this case. All of the Momenta range can also be purchased in small Herringbone pieces, allowing for even greater originality with this versatile and hard wearing range.
