ESCARPMENT

The sheer elevations create a dramatic criss-cross pattern of light and shade. It is these characteristics that give Escarpment a striking, luxury feel and ensure this range is a real statement on any floor.

Part of a larger collection inspired by the Earth's natural terrain, Escarpment shares the same rich interwoven shades of greys and beiges as the landscape it reflects.

THE NATURAL TERRAIN COLLECTION

Choose your colour bank and see how easily Escarpment transitions into an endless Plateau or rolling Tundra as you move between areas, keeping the same colour and luxurious feel.

The muted patterns of this range reflect the subtle yet immense character associated with a vast plateau that stretches into the distance.

Tundra's blended tones evoke images of a landscape formed by icy grey rivers and rolling treeless hillsides. It is subtle yet distinctive, and brings an air of luxury to any floor.

Create a very distinct look with each range.
